G-Presets – Open Roads Presets: Introducing the Open Roads Pack, a collaboration with Dawn Photo, designed to infuse your photos with a timeless elegance that will never fade. A photograph holds the essence of a moment, capturing its uniqueness forever. Our presets don't overshadow these precious moments; they enhance them like a gentle breeze – soft, unhurried, and enduring.

As a seasoned photographer and a mother of two, I understand the importance of creating images that withstand the test of time. Greg and I poured hours into perfecting the Open Roads Pack, ensuring you can elevate your photos with vibrant colours, subtle grain, and a film-like atmosphere with just one click. It's about transforming cherished moments into timeless legacies.

The Open Roads Pack features four color presets and one black-and-white preset, each with two additional variations (+ and ++), for 12 colour and three black-and-white options. Additionally, two foliage presets are designed to be applied towards the end of your editing process, adding warmth and depth to your images.

Building on the success of my previous collaboration pack, the Campfire Presets, Open Roads continues the journey of nostalgia but with a more minimalist approach. It's about capturing an image's richness while preserving its nostalgic essence.
