.cube LUT files
/// THIS SET CONTAINS LUTS FOR:
- CANON
DELUTS CLOG1 Look
/// FINISHING LUTS / END OF CHAIN LOOKS
Various end of chain luts / finishing luts / over-luts also included.
Use the finishing Luts over the top of the standard manufactures REC709 / REC2020 Luts to quickly give another level of look to your work.
The finishing Luts also work well over manufactures REC709/REC2020 profiles.
/// THIS SET ASLO CONTAINS XMP PROFILES FOR:
LIGHTROOM PHOTOSHOP LOOK LIBRARY
168 .xmp Instant look profiles for use in Photoshop (ACR) or Lightroom.
The DELUTS, LOOK LIBRARY set is also available for use with Digital Images for use within Lightroom or Photoshop and any application that uses ACR (Adobe Camera Raw). You won't be limited to just RAW images you can process your existing Tiffs or JPEGs.
How to Install ACR look profiles for Lightroom & Photoshop for use this Camera RAW, locate the package 'LIGHTROOM PHOTOSHOP LOOK LIBRARY.zip' downloaded from the Sellfy store, look for a zip file or unzipped folder for Mac. Then drag the subfolders 'DELUTS | LOOK LIBRARY' and 'DELUTS | ELEMENTS' into the 'Settings' folder as located below.
Mac
• (user)/Library/Application Support/Adobe/Camera Raw/Settings
Win
• C:\Users*username\AppData\Roaming\Adobe\CameraRaw\Settings
(Try above first)
• \Application Data\Adobe/Camera Raw\Settings
• C:Users-[user name]\AppData/Roaming/Adobe/CameraRaw/Settings
When opening .ZIP files generated on a Mac please make sure you delete any files that do not end in '.xmp' within the directories. Also on the Windows system if you have any trouble place all the '.xmp' directly into the Settings folder without any folders or subfolders. The internal way the Looks are created will put them back in order.
On Macs, if the user Library folder is hidden. Hold the Option key down while selecting the "Go" menu in the Finder.
(Please note these presets will not work on older versions of Adobe Camera RAW and Lightroom, If you are an Adobe CC member please update Photoshop, Camera RAW & Lightroom)
For Lightroom CC use import profile under Edit, Profile, drop down for import. Please note these are not standard presents but profiles and thus found under profiles. Some profiles have been omitted from this collection.
For use with Adobe Photoshop CC, Lightroom CC, and Classic.
Use only with ACR version 10.3 & Lightroom 7.3 or above.
The base looks available to all images, not just RAW.
Very quick video on where to find the Preset/Profiles
(ACR DELUTS Classics set, but helpful for location)

/// RESOLUTIONS
Supplied in 3 Lut resolutions.
DELUTS | LOOK LIBRARY | CANON x17
DELUTS | LOOK LIBRARY | CANON x33
DELUTS | LOOK LIBRARY | CANON x65
Generally, x65 is used in DaVinci Resolve, x33 in FCPX and Adobe Premiere. Although Premiere can struggle using Luts

above x17 in Resolution, please save your work regularly when working with LUTs in Premiere.
