Lightroom Compatibility

Stock Presets work with the most recent version of Adobe Lightroom (Cloud-based service), Lightroom Classic, and Adobe Camera Raw. Attention: Lightroom CC 4-6 (2015) is not compatible with Lightroom Profiles. We have added .lrtemplate presets included in the collection download for those who have a previous version of Lightroom. The .lrtemplate preset version doesn't come with the C006 Collection because it's a Lightroom profile-based collection.

- The stock Presets collection contains more than 700 Lightroom presets and profiles available in .xmp formats.
- Compatible with the most recent versions that come with Lightroom (Cloud-based services) Classic and ACR.
- Presets are compatible using JPEG & RAW photos in Lightroom.
- Compatible and compatible with MAC and desktops for PC.
- Instant download after purchase.
- The list of profiles and presets is below.
