**Surface Pattern Design in Affinity Designer:** Do you work as an Illustrator, graphic designer, or pattern designer seeking to simplify and automate your pattern-making process? Get rid of time-consuming repeat calculations and enjoy efficiency with automated patterns in my most recent class, "Surface Pattern Design in Affinity Designer: Ditsy Floral Half-Drop Repeat Pattern." It was specifically designed for artists like you. This course is your best resource to master the art of surface pattern design by using The robust Adobe Illustrator alternative, Affinity Designer, on the iPad.

In this extensive online course, I fully know the struggles you must face when creating patterns on your own. The monotonous tasks and hours spent figuring out each aspect of the process are often challenging. This course is designed to change your workflow and equip you to streamline and automate your pattern-making process with Affinity Designer.

In essence, automated pattern templates make the pattern repeat to you! Create a template of any shape you like, such as diamond, half-drop repeat, full-drop repeat, ogee scallop, or any other shape with or without symmetry. You can automate any of those forms. Transition today from novice to pro! Whether you're a novice or an experienced designer who wants to increase your knowledge base, This course is about becoming a skilled surface pattern maker using Affinity Designer.
