### Aescripts Dresser v1.0.8 (Win, Mac):

Dresser is a practical application for high-level management of the Layer Styles within Adobe After Effects that helps improve productivity.

It allows users to edit, apply, and save Layer Styles with ease while minimizing excessive clicks and providing easier access to tools that are otherwise concealed within After Effects. This tool is already armed with a user-friendly WMP interface, multi-layer support, and custom Preset Browsers, which makes it more than twice as efficient as the conventional means of managing Layer Styles. Dresser changes the interaction that the artists have with Layer Styles – it makes it easier, faster, and more efficient.

- Built-in Library for Saving and Accessing Custom Layer Style Presets
- Save, load, and manage custom layer style presets faster than ever before.
- With adjustable thumbnail organization supporting default After Effects presets (.ffx) for more straightforward viewing
- Time-Saving Efficiency
- Reduces over 50% of the time spent on managing Layer Styles.
- Minimizes repetitive clicking and menu scrolling.
- Comprehensive Layer Style Support

### Quickly add and modify:

- Blending Options
- Drop Shadows, Inner/Outer Shadows
- Inner/OuterG
- Bevel and Emboss
- Satin, Color, Gradient, and Pattern Overlays
- Stroke
- Multi-Layer Management
- Modify, turn on/off, and delete Layer Styles to several layers simultaneously.

### Those features include:

- Toggle/Show/Hide Layer Style Group
- Apply Layer Style Groups to several layers with property connections
- Remove Layer Style expression groups or styles in bulk
- Preset Creation Made Easy
- To create a new preset, save any individual or grouped layer styles directly from the panel.
- From now on, thumbnails are created automatically or custom thumbnails can be made from the active composition frame.

Dresser makes Layer Style management in After Effects a lot easier so that it is helpful for all users from laypeople to experts.
