proDAD Mercalli V6:

Mercalli V6 is a revolutionary video stabilization software optimized for news editors, documentary producers, videographers, and YouTubers.

It allows users to shoot video footage without worrying about shaky shots or lighting conditions, as the software enhances stabilization, corrects CMOS and rolling shutter issues, and optimizes image quality in post-production. Supported by artificial intelligence, Mercalli V6 offers fast rendering, hardware acceleration, and easy-to-use tools to achieve professional-grade results with minimal effort.

The software supports ultra-wide-angle shots, preserves the fisheye look if needed, and features a new user-friendly interface for smooth workflow. With added AI-based adjustments and seamless camera profile management, it ensures that spontaneous footage is transformed into polished highlights.

- **Fast Stabilization**: Extremely fast and efficient video stabilization.
- **CMOS and Rolling Shutter Correction**: Super-fast analysis and correction of CMOS and rolling shutter issues.
- **Image Optimization**: Improves contrast, colors, and saturation.
- **AI Integration (AiA)**: Artificial intelligence automatically optimizes stabilization and correction parameters.
- **User-Friendly Interface**: New, modern, and intuitive user interface for easy operation.
- **Hardware Acceleration**: High-efficiency hardware acceleration for faster rendering.
- **Ultra-Wide-Angle Stabilization**: Supports stabilization for ultra-wide-angle shots, preserving the fisheye effect if required.
- **Camera and Lens Profile Management**: Seamless integration with proDAD DeFishr for custom lens profiles.
- **Presets for Action Cams**: Preloaded with settings for various action cams and video cameras.
- **Undo/Redo Functionality**: New protocol system for undoing and redoing actions.
- **NVIDIA Encoder Support**: Supports H264 and HEVC (H265) encoding with NVIDIA hardware.
