

Bluezone Corporation – SKYNET PROTOTYPE – MILITARY ROBOT SOUND EFFECTS

2025-02-10 17:10:58 label 我要反馈 下载页面

Directly from Bluezone Corporation studios. Bluezone Corporation studios, 'Skynet Prototype - Military Robot Sound Effects' is an incredible new sound effect library that provides audio editors with innovative and creative ideas for their demanding and imaginative projects. The sample pack provides a wide range of possibilities, with not less than 209 audio files (990 MB data) offering a broad range of sounds, including chain tracks, impact and machine gun blasts, radio transmissions, and more. This sound library for professionals was created using top-quality recordings and processed using sophisticated synthesizer techniques. A wide range of sounds is included in this soundbank: beeps, ejections of the cartridge case chain loops mechanical components communications parasites, synthesized motor chains, pitches that change up and down as well gun firing sounds, numerous other sounds. Skynet Prototype is perfect for sound design for TV movies, multimedia, or video game sound applications. Similar to the other Bluezone sampling libraries, the one is royalty-free and doesn't require any additional fees or permissions. It's 100 100% ready to be used for commercial productions.
