1.
2.

The **Blender Market - Speedflow & Companion v0.1.2** introduces a suite of tools aimed at enhancing modeling efficiency within Blender.

How can users add and set modifiers and perform cuts, arrays, Booleans, and Bevels easily?

They can use "Blender Market -Speedflow & Companion" to design their project.

Speedflow streamlines the workflow by enabling users to manage modifiers directly in the 3D view, eliminating the need for manual creation. Through specialized modals, users can effortlessly add and adjust modifiers, and execute cuts, arrays, booleans, and bevels with ease.

"Blender Market - Speedflow & Companion" Samples:

Key features include a versatile Cutter Modal for object cutting, an Array Modal for managing array modifiers, a Boolean Modal for handling boolean operations, and a Bevel Modal offering unique modes for beveling objects.

These tools aim to expedite processes, offering a more efficient and enjoyable modeling experience in Blender.
