I left you guys to wait long enough, however, they are! All these Are the **LUTs** I have used in all my videos during the previous year.

### Contained in the .zip document are LUTs

- Mihailo that I am exactly what I use when there are tropical Leaves and greens in the shooter.
- Mihailo II I utilize for blue hour shots, nearly the whole'Norway | Mountains' movie Was rated using it.
- Mihailo X is a mixture of both.

The LUTs are .cube documents So that they'll operate in almost any popular NLE applications (Premiere Pro, Final Cut X, Davinci Resolve, etc..)
