MotionVFX – mO2 REAL 3D RENDERING ENGINE:

mO2 is a plugin for Final Cut Pro designed to simplify and accelerate the creation of stunning 3D animations.

Seamlessly integrated into FCP, it offers an intuitive workflow that feels natural to users.

With its Physically Based Renderer (PBR), mO2 delivers photorealistic results by accurately simulating real-world materials using simple surface properties like color, roughness, and metallic characteristics. This powerful tool makes producing high-quality 3D graphics more accessible than ever.
