The Dark and Moody set was designed for the photographer who shoots low-key And loves warmer tones. All these LR presets work well on high contrast dim Pictures but are flexible enough to work with on any picture. You'll Find presets Made to operate with different color temperatures also will ensure any kind of Situation shooting with natural lighting or tungsten/fluorescent mild, along with different skin tones.

Contained Inside this group you'll discover 31 Lightroom Presets (27 Color / 4 B&W) That will accelerate your editing procedure and make your pictures stick out in the rest. Additionally, it contains 5 presets to utilize tungsten light ("X" presets)

Please ensure that you are in charge of Lightroom version 7.3 or after to have the ability to utilize Those presets correctly.
