Silver 4: Jungle Waters 4.5 + Emulsion + Exp

Ready to compress edit choices that took hours into a matter of seconds?

After you've used the formulas and refinements that went into the creation of Silver 4. It is now your primary tool. Native tools run within your program without the need for additional mods or plugins. Silver 4 is a collection of native tools. It is designed using every development tool that is hidden in Lightroom, Camera Raw, and Capture. They simplify complex tasks.

An effective editing system makes your work more interesting because you're not spending as much time working in the editing void. In my quest to develop the top black and white presets I realized that good formulas are essential. Silver 4 makes use of that to make formulas that are powerful and surpass plugins.

There are numerous designs and techniques that can be used in black and white. This is why I understand why people are skeptical about their worth. But nothing is as good as Silver 4. They're guaranteed as they function. Improve the white and black naturally and achieve better results in a shorter time.
