Epic Snow Show for After Effects:

This is a cinematic After Effects template designed for a dramatic and powerful logo reveal. It features frosty particles, glitch effects, and an arctic atmosphere, combining stone textures, 3D effects, and swirling snow to create an intense and mysterious intro. With customizable colors and an editable tagline, this template is perfect for winter promotions, brand openers, product advertisements, and company intros. Ideal for nature, sci-fi, or horror-themed projects, it requires no plugins and works in After Effects 2021 and above, with a helpful guide included for ease of use.
