Aescripts Overlap v1.0.3 + Pre-Activated + Tutorials

2025-02-10 17:13:44　　label 我要反馈　　下载页面

Produce dynamic overlapping Activity and follow-through for Virtually Any house on your layers or contours.

Produce dynamic overlapping activity and follow-through for virtually Any house on your layers or contours. Consider the performance you want the Repeater in Form Layers needed, in case you have used Cinema 4D, just how cool it is to possess MoGraph Cloner attributes in After Effects. . .now you can!

Customize Your Cartoon

Overlap also provides you a lot of strategies to personalize your cartoon. You're in control of that controllers get added into a landscape, ensuring it isn't bogged down with attributes that you do not require.

- **Auto**-Orient your own Driver and glancing layers/shapes
- **Rename Driver** - spot your Driver simpler readily.
- **Offset Control** - independent your Driven layers/shapes in the Driver
- **Factor by Index** - dispersing property alterations on your Driven layers/shapes
- **Maintain Original** - maintain your layers/shapes in which they are and only put in the Driver's cartoon
- **Invert Control** - Find the very Driven layers/shapes to perform the contrary of this Driver
- **Stage Alter** - loop the Cable cartoon and phase-shift that the Driven layer/shape (good for personality arm swings)
- **Randomize** - randomize the sequence in the Overlap occurs
- **Index Control** - Limit your sequence that your Overlap anytime
- **Color Labels** - create it simpler to spot your own Driver & Driven layers/shapes

Directions

To use it, just:

1. Specify a keyframe on the layer you need to push the entire Cartoon
2. Click the Overlap
3. Choose Your Choices
4. Click on OK.
