To search for similar products to Liquidverve – Compositing For Portraits,

- You want to stand out and take on possibilities for your photographs!
- You're an editor! It is not necessary to be a photographer to learn about or practice portrait compositing. There are a lot of resources online that allow you to access images that you can use.
- You are familiar with the Photoshop interface and its basic tools, like layers as well as masks, adjustments, and so on.

NOTE: This course is designed specifically for Photoshop. I wouldn't suggest downloading this course to transfer it to other editing programs or phone applications.
