

Adobe After Effects For Beginners – Vfx & Motion Graphics by Udemy

2025-02-10 16:43:17 [label](#) [我要反馈](#) [下载页面](#)

Requirements

- PC or Mac
- Adobe After Effects - ANY version (even the Free Trial)
- There is no requirement to be an expert in using Adobe After Effects. This course is for beginners who do not have any previous experience using this program.

Is this the first time you've used Adobe After Effects?

This beginner's course will help you learn to incorporate cool motion graphics and visually appealing effects into your personal film projects! Plus, the best part is you'll never be bored to death!

A full disclosure: the content of this course is posted via YouTube's Surfaced Studio YouTube channel. This course is structured and contains all the course materials in one place, and can be yours for the duration of time :)
