Aescript Fast Renamer V1.5: You can easily change the name of layers in Photoshop, Illustrator, and After Effects. Available in five different languages: English, Spanish, French, Italian and Chinese. One license to all three platforms!

Select the suffix or suffix if you need them.

Select the layer you want to use. Then, select the layer you want to associate with using the application's buttons.

Map of the road (next version)

- Review UI/UX
- Add a customizable picture list
- Add customizable illustrator sublayers increment
- Enhancement of the parameter recording system
- **Increment** - You can decide to increase the size of named layers and alter the increment.
- **Add the current layer's name to the existing one.** - It is possible to change the name of the layer while preserving the content of the layer.
- **Text or Picture list** - Lists of defaults can be used in text or as picture lists.
- **Lists** - There are five default lists; however, you can make your own!
- **Share your list** - It is possible to send it to your team.
