Aescripts Prism v2.0.1 Full (win, mac) + keys + Tutorials

2025-02-10 17:04:57　　label 我要反馈　　下载页面

Prism is a toolkit for Coordinating your Coating panel Through Label colors.

A tool that grants you control over your coating And item tags, leaving your jobs a lot simpler to utilize and maintain sanely.

Color Simply

- Colour all (or selected) layers with the identical label.
- Every click cycles the tag color.
- Hold ALT to color each layer otherwise
- Project Things: Same behavior as previously

Color byHierarchy

- Group label colors by parent/children chains
- Project Items: Things will be grouped with precomp/nested thickness

Color byName

- Group label colors by layer kind
- Hold CTRL / CMD to define tags for types
- Project Things: Colour by item type

Color byType

- Group label colors by title, through a choice
- The group with a delimiter (by Way of Example, a hyphen or underscore)
- Group by Left/Right
- Group by both
- Project Things: Same behavior as previously

ColourMasks

- Colour all (or selected) layers with the identical label.
- Every click cycles the tag color.
- Hold ALT to color each layer otherwise

New to Prism 2.0!

- Publish 'Colour Masks' button
- Adds capability to color project things
- Adds color swatches with every tag name
- Adds 'jump locked layer/mask' toggle
- Adds 'skip Aggressive layer/mask' toggle
- Adds a couple'color by title' native behaviors for personality rigs
- Adds alternative to cycle begin label color
- Adds change +click when reordering tag banks to proceed to top/bottom
- Adds change +click when resetting tags to place energetic labels to ALL tags
- Fixes bug with non-English AE not loading custom tag colors
- Other small bug fixes
- Stability improvements
