Archipelago – Amara: Archipelago Amara offers a portrait-oriented set with four intuitive AI tools that allow users to alter the look of eyes, skis,n lips, skin, and more in just one click. These tools are presets referred to as Looks, and each look offers various options to apply to your portrait that are natural and soft or lively and precise. These new tools are eight distinct color-graded presets, three innovative profiles, and unique tools. All this is to assist you in achieving the perfect tone you're looking for in your portrait. Warm, soft, beautiful. Amara.

INSTALLATION & SET REQUIREMENTS:

The set needs Adobe Lightroom Subscription. The set requires Classic LR and CC (v12+) or the LR CCC (v6+), or Adobe Photoshop ACR (v15+). This set is built upon our custom creative profiles developed to use RAW files. These Presets and Profiles were designed and thoroughly tested using RAW images of Canon, Nikon, Sony, Fujifilm, Pentax, and Leica—prices in US Currency. After purchasing, please go to the Install page for instructions on how to install it. The presets are now available.XMP format will be placed distinctly, unlike the previous LRTEMPLATE files.

Included Files:

- Amara 01: Neutral-leaning warm style with a golden skin tone and mossy greens.
- Amara 02: A little cool, with a slight push of warmth that produces pink skin tones and mint greens.
- AMARA 03: Soft shadows with cool mid-tones give a minimalistic look using honey-amber skin tones and blue skies.
- Amara 04: Soft ivory highlights, paired with desaturated foliage, pushed to warm, creating soft, sandy skin tones.
- Amara 2005: Amber throughout creates a stylish look with warmth.
- Amara 06: A powerful push in the shadows of green, providing an abundance of olive-tinted foliage.
- Amara 07: A straightforward and straightforward, nifty little B+W that was designed to be versatile.
- Amara 08 Warm, dark, and moody B+W. Highlight pushed in for an ethereal glowing.
- **Retouching of portraits with one click:** Use the 5 "Look" presets included to modify the appearance of your subject! Utilize Adobe's preset Slider to set every "Look" to the desired amount of your photo.
- **The subject presets** make your subject pop against a dark or light background. The additional profiling, Sol, adds warmth. To add quality to the field, use the DOF + preset with one click and change the intensity using the Spreset slider!
- **Look - Very minimal:** Mild airbrushing to the skin without affecting other functions.
- **Style: Natural** Airbrushing lightly eyes detail, detailed lips, and the lips' natural color.
- **Look Bright:** Moderate airbrushing, vivid eyes, bright lips, and deep skin tones.
- **Look - muted:** moderate airbrushing, clear eyes, muted lips, and deep skin tones.
- **Look Only - Eye Only** Reduces the impact of the neck from below.
- **Subject A** The subject is popped by lighting background.
- **Subject B** reveals the subject's name by making the background darker.
- **Profile Sol** Apply secondary profile Sol for a stunning warm appearance.
- **DOF +** Gives a subtle depth of field impact to your backdrop.
