HOW to Use POETICO

Each preset is created to use muted colors and is designed to create, a soft ambiance with a low to moderate contrast. The presets are suitable for use outdoors or indoors. I personally like diffuse light and staying clear of direct sunlight when I am working. Therefore, shaded areas or days with clouds are the ideal choices for these styles.

Afrodite, as well as Era, are slightly warm tones while Aura, Dioniso, Calliope, and Ebe are more de-saturated. Venere is preset that has more grain and softness and is the best to create a dreamy, fluid ambiance.
