Information About This Class

Have you ever been unable to locate a color palette to create illustrations using procreate on your iPad? Perhaps you found the idea difficult! If you are, then this is the class to attend!

Join me for this short small class that will demonstrate how to use procreate as well as the world around you for inspiration. You can create unique colors and fantastic color palettes for your artwork.

In this brief course, you will be taught:

- How do you take color palettes on an iPad as well as Smartphone?
- How can you use the outside world as an inspiration to discover your own colors
- A way to utilize your color palettes to create the illustration from beginning to end.

What do you need:

- An iPad with iOS13 and later
- Apple Pencil, either (1st Generation, or the 2nd)
- Smartphone with camera
- Procreate App

Why should you take this class:

This class is for people who are who is just beginning to create drawings using the iPad and who are seeking out colors they can incorporate into their work.

- Beginning users who are just beginning to learn about procreate
- Anyone who wants to gain a quick ability to create more color palettes
- Anyone who is just beginning to learn about illustration should look to enjoy color

After this course, you'll hopefully be able to quickly enjoyable and fun methods to make color palettes. Also, you will learn ways to apply your colors to create illustrations.
