It is possible to use this LUT with LOG profiles. However, you will need to adjust the footage's contrast and saturation. To make a quick and simple adaptation of LOG footage, make use of the Correction LUT for LOG.

HOW to Use

You'll need video editing programs like Adobe Premiere Pro, FinalCut Pro, or Davinci Resolve.

To Premiere Pro users: Open your Lumetri section, then apply the LUT to an adjustment layer.

For the best results using your camera:

- A film with HLG3 using Color mode: BT.2020 or Cine1, Cine2, or Cine4 Picture Profile for Sony Cameras (Everything
