Blender Market

Blender Market - Stylized Trees And Plants Tree Library Flora Paint:

Flora Paint is a botanical asset library for Blender that provides over 500 diverse resources across more than 10 categories. It's designed to enhance vibrant, stylized scenes in anime, cartoon, and conceptual art styles. The library includes detailed trees, grasses, flowers, ferns, and moss, allowing users to seamlessly integrate these assets into their artwork. With Flora Paint, artists can easily elevate their creations with unique charm and character.

- **Scatter Tool**: Quickly enrich scenes with vegetation.
- **Customizable Assets**: Tailor scene creation with highly customizable plants and trees.
- **Random Leaf Color Variations**: Effortlessly generate diverse leaf colors for realism.
- **Dynamic Animation Effects**: All trees feature animations for a more lively appearance.
- **Rendering Support**: Compatible with both Eevee and Cycles rendering engines.
- **Artwork Examples**: Includes artwork created using the FloraPaint tool.
