Meridian – LKO – FILM PRESETS By Lukas Korynta: The presets took quite a while to develop. I've shot film quite a bit in recent years, and it draws me in more ways than anything else in terms of the colors, the grain, and the unpredictable characteristics of the light. Therefore, creating presets precisely like the film is a goal that I am optimistic about. However, after nearly a whole year spent studying, scanning, and playing with various film stock, I'm thrilled to finally release these to the world for other photographers to admire and, hopefully, inspire others to explore film and enjoy its distinctive and timeless style.
