

Blender - Cloudscapes V2

2025-02-10 16:43:17 [label](#) [我要反馈](#) [下载页面](#)

Blender - Cloudscapes V2: Introducing CloudScapes V2, the ultimate collection of hyper-realistic VDB clouds and explosions for Blender. With over 390 different clouds across 18 categories, CloudScapes brings unparalleled realism to your 3D projects.

What is VDB? VDB (Vector Data Binary) is a groundbreaking technology developed by DreamWorks for storing three-dimensional data grids in the CGI industry. This enables the creation of realistic atmospheric effects like clouds and explosions with incredible detail and complexity.

- **Compatibility:** CloudScapes is compatible with both Cycles and Eevee rendering engines in Blender and Blender's Asset Browser, for seamless integration into your workflow.
- **Drag and Drop:** Easily add assets to your scene using Blender's Asset Browser without additional aadd-ons Enjoy a streamlined workflow with all your assets accessible in one place.
- **Customizable Shader:** The easy-to-use shader lets you customize your clouds with ease. Create bright, beautiful skies or dark, ominous clouds with just a few clicks.
- **Animation Ready:** While CloudScapes clouds are static by default, you can quickly animate them using simple techniques for dynamic, lifelike movement.
- **Biomes for Geo Scatter:** Utilize the GeoScatter addon to add one of 29 cloud ecosystems to your scene with a single click. These biomes are crafted from accurate cloud data for maximum realism.
- **Real Clouds:** CloudScapes includes nine families of clouds, along with additional categories for smoke trails and miscellaneous cloud types, all based on accurate data for authenticity.
- **Incredible Realism:** Each cloud in CloudScapes is meticulously crafted using specific volumetric simulation software, ensuring high realism and accuracy.
