vamify - LUT Pack for Wedding Filmmakers: Add intimate tones and thorough looks for your wedding photos.

The Wedding LUT Bundle Works with Premiere Pro, Final Cut Pro X, DaVinci Resolve, Avid Media Composer, and After Effects. You get 13 Unique LUT's. Cube documents are contained, that's the industry standard file type for LUT editing.

The LUT's work best with horizontal picture profiles. Play a little bit with all the curves and the LUT files will finish up to your very best resolution for the wedding videos.

The Cinematic Lut Pack Works with Premiere Pro, Avid, Final Cut Pro, After Effects, and DaVinci Resolve.
