Unreal Engine - Kawaii Animations 100 v5.0:

Introducing an adorable asset featuring a plethora of women animations, meticulously crafted based on community requests and feedback. Initially aiming for 100 animations, this asset has now expanded to include an impressive total of 242 animations, with an additional set of Z-axis only versions for 65 movement animations.

Asset Contents:

- The animations in this asset are categorized into four main types.

Basic Movement (Walk, Run, Jump, Turn):

- Originally intended to replace the animations of the third-person template, this category now includes additional movements such as backward, left, right, pivot, start, stop, and turn. Please note that this asset does not include a movement system like LyraStarterGame; users will need to configure it themselves.

Idle Animations:

- Currently comprising 51 seamless idle animations depicting various actions, with plans to expand this collection to 100.

Sitting and Sleeping:

- Includes 6 animations each for sitting on a chair and sleeping on a bed, all seamlessly connected.

Combat Animations:

- Featuring four types of combat animations: bare-handed, one-handed sword, wizard, and heavy long sword.

These animations are designed to seamlessly integrate into your projects, adding charm and character to your virtual worlds. Whether you're creating lively NPCs or dynamic combat sequences, this asset provides a diverse range of animations to bring your scenes to life.
