Karel Chladek – Street Presets Vol II:

- Karel Chladek Street Presets Lightroom\Climax.xmp - is the grunge filter. Midtones of green darkened red tones with highlights that are exposed, great for raw cold neon images.
- Karel Chladek Street Presets Lightroom\Lime Walls.xmp - is an exclusive preset that I designed for wide and aerial cityscapes. It will highlight the warm light from the windows and add a blue hue to the blacks.
- Karel Chladek Street Presets Lightroom\Miss Pine.xmp - is my most recent and favorite filmic preset. It converts warm images into dark highlights that are cold and purple with a purple midline.
- Karel Chladek Street Presets Lightroom\Neo Shade.xmp - is the darkest and "moodiest" preset. Desaturated, cinematic, Bladerunner.
- Karel Chladek Street Presets Lightroom\Twin A.xmp - is the most popular element that makes up this collection. They'll definitely have an important role in the editing process. Try both on red neon-lit photos, and you'll see!
- Karel Chladek Street Presets Lightroom\Twin B.xmp - is the most popular element that makes up this collection. They'll definitely have an important role in the editing process. Try both on red neon-lit photos, and you'll see!
- Karel Chladek Street Presets Lightroom\Uncle Film.xmp - will add a vintage vibe to your photos. Darkened blacks, grain along with hot spots.

This product works with Lightroom CC, as well as Lightroom Classic CC. Lightroom Presets can be used with RAW and JPEG photos.
