Unreal Engine - Torches package - 50 Variations:Our PBR Prop package offers a versatile collection of meticulously crafted meshes and textures tailored for use in both AAA-quality projects and those emphasizing optimization and performance. With 25 meshes, 25 blueprints, and 1 Particle System, each prop is meticulously designed for seamless integration into diverse environments.

Featuring 82 custom-made textures at 4096 x 4096 resolution, including 81 materials with 5 base materials and 27 material instances, our package ensures unparalleled visual fidelity and customization options. The Particle System imbues flames with a realistic look and movement, offering the flexibility to toggle torches with or without flames.

How can we create torches with the highest quality for our projects?

You can use "Unreal Engine - Torches package - 50 Variations."

Where can I download the product?

After subscription, You can download it for free from here.

"Unreal Engine - Torches package - 50 Variations" Samples:

With collision and LODs automatically generated, our package streamlines development across Unreal Engine, Unity 3D, Sketchfab, Marmoset, and leading ray-traced engines. Backed by direct support from the developers, our PBR Prop package empowers creators to bring their visions to life.
