Catchup Importer Pro v1.0.5.1: There's a good thing for those using Blender with Sketchup. We have launched CatchUp Importer, allowing users to transfer imported models they have created in Sketchup straight into Blender. We have also developed a Layer system similar to CAD software. If you're already using the Extreme PBR addon (V3.3.3), it is possible to sync Sketchup materials to those of Extreme PBR.
