### How to use

- 1- let's add the logo to the project. In the folder "Logo" the opening composition is named "Logo". Let's load the logo into the project and drag it from the Project panel to this composition. Adjusting sizes so that the logo edges support the composition limits. Also, we can simply write the text by means of the "Horizontal Type Tool".
- 2- Opening the folder "Texts". Next, as an example, I'm opening the folder "Animation 1". There is the text belonging to the first scene there. And further opening compositions with text. Pulling the scroll bar on the panel timeline till our text appears. Double-click on it and type what we need. Edges which cannot be crossed are marked with blue lines. On the same principle changing all our text.
- 3- Let's go to folder "Control Panel", opencomposition "Control Panel" and adjust the main controllers concerning color, and brightness level, and also switch on and off some elements. Clicking on the layer "Control Panel" and going to the inset "Effect Controls". If you don't see this panel click Window and put the checkmark on "Effect Controls". Let's start the adjusting.
- 4- Now let's save our project. Going to Inset Project, open the folder "Final Comp" click the Final Comp, go to the menu Composition, and click "Add to render queue". In the inset lossless select the video format and adjust all other needed settings. Clicking Render and waiting for Rendering completion.

### What is Space Teaser (Motionarray 254075) - AE Project?
