Blender Market - Knotus -The Masic Of Knots:

Knotus is a Blender add-on designed to simplify the creation of strings, knots, pipes, and cables. It includes a comprehensive asset library with over 100 knots, preset string shapes, and tools for creating complex knot types and pipelines from edge polygons.

While development has ended due to the integration of similar functionalities with Geometry Nodes in Blender, Knotus is confirmed to work seamlessly in Blender 4.0 and beyond.

- **Asset Library:** Over 100 knots available.
- **Preset String Shapes:** Quickly create and customize string designs.
- **Mesh Editing:** Modify freeform mesh shapes effortlessly.
- **Free Tube Creation:** Generate pipelines from edge polygons with one click.
- **Free Coloring Materials:** Easy application of customizable materials.
- **Texture Sizes:** Support for 1K to 4K textures.
- **Auto Displace:** Automatic switching between Displace Modifier in Eevee and Displace Node in Cycles for seamless rendering.
