

Blender - STEPper v1.1.8

2025-02-10 16:52:33 [label](#) [我要反馈](#) [下载页面](#)

Blender - STEPper v1.1.8:

This add-on enables importing STEP files directly into Blender 2.80 or later, converting them into a triangulated mesh with normals derived from the underlying surfaces.

It is compatible with Windows 10 (64-bit) and requires Blender 2.8+ with Python 3.7 or higher. Installation is straightforward via Blender preferences: navigate to Add-ons, select "Install...", and choose the provided .zip file.
