After Effects　Project

Sparkler Typeface (Videohive 34933538) - AE Project: Sparkler Typeface is a typeface that can be animated, that is perfect for Christmas-themed titles or Lower Thirds. It can also be used for even intros! All letters feature high-quality 1500x1500 pixels, making huge-scale projects feasible. Each letter's duration is 10 seconds. It is easy to make titles, subtitles, and trailers according to your own preferences.

Quick Setup

The download includes the script specifically designed especially for the typeface. The script allows you to quickly create your own words or phrases in one single click. Once you've created the text, you can choose other options to format the text according to your preferences. Increase or decrease letter spacing, randomly alter letters scale and location as well as offset animations!

- Full Alphabet A-Z
- From 0 to 9
- CC and above
- No plugins are required (the version that includes Trapcode Particularly included)
- Simple customization
- Video tutorial included
- The Script Typeface is included
