

# CData Drivers for Amazon Marketplace v24.0.9060 (21 Oct 2024) All Platforms + License Key

2024-12-18 23:02:00 label 我要反馈 下载页面

provide seamless integration solutions for connecting live Amazon Marketplace data with a variety of reporting tools, databases, and custom applications through standards-based drivers. Users can effortlessly merge Amazon Marketplace data with BI, reporting, analytics, ETL tools, and custom solutions, enabling easy access to data from anywhere. With unmatched query performance and comprehensive access to data and metadata, these drivers ensure smooth connectivity and compatibility with popular analytics tools, facilitating efficient data integration for various business needs.

**CData Drivers for Amazon Marketplace** extend ETL tools with Amazon Marketplace connectivity and offer ETL/ELT tools tailored for Amazon Marketplace data integration, guaranteeing robust, reliable, and secure data movement. Users can connect their RDBMS or data warehouse with Amazon Marketplace for operational reporting, query offloading, increased performance, data governance, disaster recovery, and more. With support for popular database protocols like ODBC, JDBC, and ADO.NET, connecting to and managing Amazon Marketplace data becomes effortless across various database management applications.

Developers benefit from these drivers' data-centric model, simplifying integration and accelerating application development. Additionally, **CData Drivers for Amazon Marketplace** offer a virtual database abstraction on top of Amazon Marketplace data, supporting advanced data virtualization features for enhanced query delegation and predicate pushdown capabilities. This comprehensive integration solution ensures efficient access to and management of Amazon Marketplace data, empowering businesses to make informed decisions and drive growth.

### This bundle includes the following elements:

- Amazon Marketplace ADO.NET Provider
- Amazon Marketplace BizTalk Adapter
- Amazon Marketplace FireDAC Components
- Amazon Marketplace JDBC Driver
- Amazon Marketplace MuleSoft Connector
- Amazon Marketplace ODBC Driver
- Amazon Marketplace Power BI Connector
- Amazon Marketplace SSIS Components
- Amazon Marketplace Tableau Connector
- Excel Add-In for Amazon Marketplace

## Key Features of CData Drivers for Amazon Marketplace:

1. Seamless integration with reporting tools, databases, and custom applications
2. Comprehensive access to live Amazon Marketplace data
3. Compatibility with popular analytics tools
4. Extension of ETL tools for robust data movement
5. Support for various database protocols, including ODBC, JDBC, and ADO.NET
6. Simplified connectivity and management of Amazon Marketplace data
7. Accelerated application development with a data-centric model
8. Advanced data virtualization features for enhanced query performance
