INSTRUCTIONS

There are three methods for applying photo overlays. first - by using Overlay Actions (include) 2nd using the Quickstart PSD course (include only in the PRO version) 3rd - the standard Drag'n'Drop technique.

1ST MODE: OVERLAYS ACTION

This approach is more advanced since it lets you easily apply overlays to any directory, including with other retailers. When you set the parameters for the actions, you could make an F3 hotkey (for instance) so that in just one click, you can initiate this action.

1. Double-click on the overlay Actions .atn the file to import it into Photoshop. After installation, you can access the Actions panel in Photoshop by clicking the 'window Actions'. There are two actions available: JPEG and PNG Overlays. The distinction between Overlay Action JPEG and Overlay Action PNG is that JPEG utilizes screen blend Mode.
2. Search for "Overlays Action Select 'Overlays Action' and then press Play any action you require.
3. The Photoshop dialog box appears and asks you to choose the image. Continue to browse and locate the folder that you have unzipped, and choose the picture you like. The image will instantly be uploaded into the Photoshop folder where the image is opened.
4. Reflect, rotate, or scale the overlay, if you wish.
5. Enter the Cmd (Ctrl) and enter, and the operation will generate the layer mask as well as two adjustments layers. If needed, use a black brush to the layer mask in order to cover the image if needed and, within the adjustment layers, modify the color or Levels to ensure that the overlay is appropriate to the image.
6. Save the image, and then show it to your customers. They will be amazed by the outcome

2nd MODE 2nd Way: Quickstart PSD COURSE

This technique lets you work with a photoshop image and then select the layer you want to overlay and make layers visible. This is beneficial since you can view it within the thumbnails that show layers of the image however, it's a hassle to use in certain versions in Photoshop the file might not properly open. This is an optional feature and is included as is.

3RD Way 3. DRAGG'N'DROP

3.1 Drag out of the folder any image to save it within the Photoshop file. If the image has backgrounds of black, apply screen blend Mode. To change the blend setting by double-clicking on the image, and the window for styles will appear. Switch the
