The **Unity Asset - STYLIZED: Complete Drift Cars** is a complete set of 14 stylized Japanese cars designed to work with any car controller. It includes 84 car prefabs, with and without colliders, to facilitate easy implementation.

#### How to use the Japanese style car to design your project?

You can design your project using "Unity Asset - STYLIZED: Complete Drift Cars".

Each unique vehicle is available in six colors, featuring 4200-6100 vertices per car. The set includes one 1024x1024 texture and three materials. Technical details include UV mapping, but no LOD. The package is optimized for flexibility and compatibility with various car controllers.
