70+ Professional Cinematic LUTs Pack:

The "70+ Professional Cinematic LUTs Pack" includes over 70 stylized LUTs (.cube files).

Compatible with software like Adobe Premiere, Final Cut X, DaVinci Resolve, Photoshop, Luminar, VN, and CapCut, this pack offers versatile application across various platforms.

For optimal results, adjust the contrast, highlights, and vibrance of your footage before using a LUT, aiming for an opacity range of 70-90%.

This preserves the LUT's color values while achieving the desired look.

Adjust white balance prior to applying the LUT to ensure a balanced foundation for color grading.

The LUTs also work on smartphones, with the VN app recommended for enhancing iPhone footage.

Transfer the LUTs to your phone's Files app for seamless integration with your video editing application.
