Unity Asset - Dryad Girl Fawnia v1.0: Introducing Fawnia, the adorable Dryad Girl, perfect for your fantasy or dress-up game!

This fully modular character comes with a plethora of features to enhance your gaming experience:

Polycount:

- Dryad Girl Fawnia: Faces 51628, Tris 99310, Verts 65747
- Dryad Girl Nude: Faces 38216, Tris 73304, Verts 46657
- Dryad Staff: Faces 1008, Tris 1932, Verts 976

Rig:

- Fawnia's rig is based on the Humanoid skeleton, making retargeting animations a breeze.
- It was tested with various animation sets, including ALSv4, 3rd-person standard animations, and more.
- Additional bones are provided to apply physics to different parts of the character.

Blendshapes:

- Perfectly calibrated Apple Blendshapes for realistic facial expressions.
- Body morphs are included for adjusting breast and butt size, hair length, and knee targets.

Different Outfits and Modularity:

- The fully modular character allows you to mix and match different outfits and accessories.
- Clothes can be removed entirely, with both censored and uncensored body texture options available.

Unity Project:

- Supported Unity version: 2020.3.38f1
- Compatible with Built-in Render Pipeline, Universal Render Pipeline (URP), and High Definition Render Pipeline (HDRP).
- Blueprints and animations are not included, but they are compatible with any Humanoid animations from the store.
- Physics is not included, but the character rig supports physics interactions.
- AllPartsTogether.fbx file included for customization.

4K Textures:

- BaseColor, Normal, Roughness, Metallic, Ambient Occlusion, MatID, Opacity, and Emissive maps are included.
- 9 Texture sets for various character parts, including body, head, hair, and more.
- Textures are optimized for better performance.

- Completely modular: Customize Fawnia's appearance easily by adding or removing various parts.
- Fully Rigged: Utilize the Humanoid rig, based on Maya, for seamless animations and interactions.
- Apple Blendshapes: Enjoy 52 finely calibrated blendshapes, compatible with facial animation systems like LiveLinkFace, FaceWare, and more.
- Horns, Fluffy Ears, and Tail: Fawnia's distinctive features are fully customizable and can be removed or added as desired.
- Easy Color Change: Experiment with different colour options effortlessly to suit your preferences.
