After Effects　　Project

Colorful App Presentation (Motionarray 792433): Colorful App Demo is a professionally built After Effects template which uses dynamically animated smartphones, easy text cartoons, and easy transitioning effects to show and boost your media. It comprises 15 photo/video placeholders, 10 text placeholders, and one logo placeholder. An excellent way to advertise and promote your new site, sport, and software or you'll be able to use it as an opener for your corporate demonstrations, company slideshows, and event movies. Impress your audience for this up so far and animated AE template. No plugins needed.
