Design your own Watercolor artwork! You are in control! You Decide What You Would like, where you need it, And the way you would like it. No inconsistent actions here. Easy and enjoyable! Just load the Brushes to Photoshop, open the PSD file, insert your picture to the Smart-object, and start painting to the bottom layer of the cutting mask with The brushes supplied.

I spent many months Building those brushes, and I'm rather pleased of these came out. I've Absolute faith you will enjoy them also, and will probably throw away all Your electronic watercolor brushes once you get your hands on those.

35 Dynamic High-Resolution Photoshop brushes Which Were constructed to mimic that of actual watercolor movements. They're as near actual watercolor since it is possible to become digitally.

68 High-Resolution real Watercolor scanned Stamp brushes adding more accents in which you require it.

Two PSD High-Resolution Photoshop layered file templates -one horizontal and one vertical using a Resolution at 300 dpi, 6000 x 4000 pixels. Inside every PSD are watercolor Paper layers (Coarse, Medium, and Fine grain], a Smart Object to put your Picture using a recipe of Smart Filters which can blow your mind as you see what It does together with your initial picture. You will then be prepared to paint these Great brushes and show your art on a sterile newspaper canvas.

4 watercolor textures are Included as an incentive to include more feel if desired.

A PDF containing Directions and ideas on using the layers within the PSD file.

A Video Tutorial which Goes through the full process of producing your watercolor artwork from beginning to finish.

Use it to produce any Product requiring art, such as wall art, record covers, book covers, movie posters, postcards, mugs, t-shirts, mobile phone cases, house accessories, home accessories, or Anything else possible.

ADOBE PHOTOSHOP ONLY CS5, CS6 OR CC+
