Darren King and Jeremy Lotito are no longer your common composers. These instrumentals will create gorgeous audio landscapes for your visuals to thrive, proposing haunting and addictive rhythmic hooks.

MEET THE COMPOSERS

Darren King (Mutemath, Kanye West) and Jeremy Lotito (Leagues, Nike) are now not your common composers... These world-renowned drummers and multi-instrumentalists are actual masters of melody and wealthy analog texture.

It was once an absolute dream come genuinely to work with these insanely gifted producers... bringing a new audio ride to lifestyles (and getting to create some of our personal visuals in the process).

OTHER-WORLDLY

RUINS is a series of other-worldly sounds stimulated through videos like BladeRunner, Tron, and Annihilation.

These amazing musical factors will create the audio landscapes for your visuals to thrive, proposing haunting and addictive rhythmic hooks.
