Aescript Search and Select Properties v1.0.4:

The Search and Select Properties script for After Effects is a powerful tool designed to improve workflow efficiency by simplifying the process of locating and selecting specific properties within complex compositions.

With its intuitive interface, users can quickly search by property name, refine results with a "Strict" mode, and streamline the selection process. Additional features, such as copying and pasting selected properties, make this script an essential asset for motion graphics, visual effects, and animation professionals aiming to enhance productivity and focus on creative work.

- Quickly search for multiple properties by name
- Display search results in alphabetical order
- "Strict" mode for more precise search filtering
- Select and copy/paste properties seamlessly
- User-friendly interface for smooth navigation
