**Three Screen Video Wall Intro Pack VH-38880878:** The Three-Screen Video Wall Intro Pack is an intro pack that is based on the concept of broadcasting video walls with multiple video screens. It comes with two different kinds of intros as well as three loopable video scenes. You can upload your own video clips or add your own images to this project to showcase your own videos, stock footage, and videos. There's an AE script that is included within the package to upload your videos/images on the video with one click. Watch the video to get an understanding of how it functions. It's a simple to-edit project that doesn't require any plugins. The Project has more than 360 photo and video placeholders. The project is created with a Full HD resolution 1920x1080 version. This project is compatible with Adobe After Effects CC2019 and later versions. The stock footage and music that are used in the previews aren't included.
