It is a Lightroom Brush Preset pack contains 16 of my Lightroom Brush Presets for dodging burning (lightening and darkening) parts of your image. I employ this technique frequently to enhance drama, create complex lighting or to create emphasis and depth, making my photos stand out and tell their own story. The Lightroom Brush Presets provide a simple and effective method to make specific adjustments to specific areas of your image. They can be used in conjunction with Lightroom's Adjustment Brush, Radial & Graduated filters in Lightroom.
