Java　&　ActiveX Components

"" is a concise course designed to teach you how to integrate functional programming principles into your JavaScript projects effectively. Covering fundamental concepts, core features, and advanced techniques, the course also explores how modern JavaScript frameworks like React incorporate functional programming paradigms. By the course's end, you'll have the skills to write more efficient and maintainable JavaScript code using functional programming concepts.

Functional Programming Concepts in JavaScript Table of contents:

1. Course Overview (Duration: 1 minute)
2. What Is Functional Programming? (Duration: 13 minutes)
3. Explore Core Features of Functional Programming (Duration: 22 minutes)
4. Function Composition (Duration: 6 minutes)
5. Built-in JavaScript Functions (Duration: 13 minutes)
6. Advanced Concepts of Functional Programming (Duration: 13 minutes)
7. JavaScript Frameworks (Duration: 17 minutes)
