Cam-FX is an add-on that allows you to design customized Bokeh. 120 Bokeh textures are available in this application. Bokeh is achieved through the blurred background that is present in an image. It's the shape, the design of the blurred background. It is possible to modify it to add more realistic 3D images! Dirt lens function which lets you dirty the lens. What's the purpose? To add more real-world realism to your photos. Cam-FX works only with Cycles. It is a tool for professionals for advanced Blender users.
