I have finally put together a package of 6 caliber LUTS/Looks That I have used regularly over the last couple of decades. All these are LUTs that I utilize on a Daily basis and go back to if grading my footage. It is finally Time to share them.

What's a LUT? In summary, it is basically a filter to your footage. With information within the LUT, when applied to own video clips it will immediately add a colour correction to your own footage providing you a definite"Appearance".

Contained LUTS: Whiteout, CyberCity Midnight, Subtle Classic (Teal & Orange), M O D Y, Beautiful Brick, and Golden Rush
