Adobe Audition 2025 v25.0 (Win, Mac): Audition is a robust audio workstation that features multitrack, waveform, and spectral displays for the creation, mixing, editing, and restoration of audio content. This comprehensive toolset is designed to enhance video production workflows and audio finishing, ensuring a polished mix with exceptional sound quality.

- **Audio Mixing and Mastering:** Ideal for various audio projects, including movies, music, and podcasts, Audition offers tools to refine sound and master audio tracks.
- **Compatibility with Hardware:** The software supports a wide range of audio gear and plug-ins, allowing users to work with their preferred equipment.
- **Streamlined Editing:** Adobe Sensei enhances the editing experience with features like automatic music length adjustment (remix function) and volume control (autoducking tool).
- **Customizable Controls:** Users can manipulate audio layers using the Multitrack editor and adjust sound amplitude in the Waveform editor.
- **Noise Reduction:** The Spectral Frequency Display allows for visual editing of sound waves to remove unwanted background noise.
- **Integration with Premiere Pro:** As part of Creative Cloud, Audition enables easy addition of mastered audio to Premiere Pro projects, streamlining the audio finishing process.
- **Extensive Effects and Tools:** With over 50 effects and analysis tools, Audition provides complete control over audio mixing, ensuring high-quality sound output.
