- Pixel ideal details
- 100 percent Vector
- 64x64 grid dimensions
- Entirely Editable SVG documents

What is a Food Icons Set?

A "Food Icons Set" typically refers to a collection of icons or symbols specifically designed to represent various food-related items, categories, or concepts. These icons are often used in graphic design, websites, apps, menus, or any context where visual representation of food-related content is needed. The purpose of such a set is to provide a cohesive and visually consistent way to communicate different food items or related actions.

These sets are valuable resources for designers, developers, and anyone creating visual content related to the food industry. They provide a consistent visual language that enhances communication and makes it easy for users to quickly identify and understand different elements related to food.
